SUMMARY

Frontend Developer with hands-on experience building responsive and user-friendly web applications using React.js and TypeScript. Skilled in creating intuitive UI/UX designs and working with both SQL/NoSQL databases, with a strong interest in developing scalable, user-focused software. Passionate about learning modern technologies, solving real-world problems, and continuously improving through practical software development projects.

MAJOR SKILLS

Languages: React, TypeScript, JavaScript, Node.js, Tailwind CSS

Database: MySQL, PostgreSQL, MongoDB

Tools & Technology: Git/GitHub, Trello

Cloud: Vercel, Azure

PROJECTS

ShopSwift – E-commerce Front-end

[Link](#)

Frontend (React, Vite, CSS)

A responsive e-commerce front-end that enables users to browse products, manage their cart, and experience a seamless shopping workflow.

- Developed reusable React components with client-side routing using React Router.
- Integrated REST APIs using Axios for dynamic product data fetching.
- Built a responsive, mobile-first UI with HTML, CSS, and modern React hooks.
- Optimized development with Vite and maintained code quality using ESLint and Day.js.

FootyKit — Football Jersey Store

[Link](#)

Fullstack (JavaScript, PHP, MySQL)

Developed an e-commerce football jersey store with size selection, quantity management, shopping cart, and order processing.

- Built with HTML, JavaScript, PHP, MySQL and CSS for a responsive and modern UI.
- Integrated E-sewa Payment Gateway for online transactions.

CoFound – Cofounder Matching Platform (Hackathon Project)

[Link](#)

Fullstack (NextJs, Prisma, MongoDB)

A focused platform that helps solo founders find the right co-founder using structured compatibility matching instead of generic networking.

- Built full-stack app for founder & co-founder matching.
- Implemented 100-point compatibility scoring engine.
- Designed Prisma schema with MongoDB for match computation.
- Developed and presented the complete application in a 32-hour hackathon.

EDUCATION

Swastik College

Nov 2022 – Present

Bachelor of Science in Computer Science and Information Technology

LANGUAGES

Nepali, English, Hindi
